#40 Conveyor Lubricant

Product Data Sheet

Description:

#40 Conveyor Lubricant is a concentrated soap made from a blended mild base and has a mild aroma.

Uses:

#40 Conveyor Lubricant is suitable for lubricating moderate to lightly loaded equipment such as conveyors and turntables. It is safe for use with most rubber seals and gaskets. Manufacturers recommendations should be consulted for the appropriateness of using soap based lubricants with specific equipment.

Features:

- Strong lubricating power
- Excellent adhesion
- Biodegradable
- Low coefficient of friction
- Contains no petroleum
- Contains no phosphates

Product Data:

- Form: Liquid
- Color: Amber
- Odor: Bland
- Boiling Point: >180°F
- Flash Point: >180°F
- Water Miscibility: Good
- Bulk Density: Approximately 6.5 pounds per gallon
- pH: 9 - 12
- Total Alkalinity: >75 mg KOH/g equivalent
- Viscosity: >95 cps minimum
- Free Fatty Acid: 0.01-0.3%
