

Ferrnsol™ Form Release Agent

P R O D U C T D A T A

DESCRIPTION

Ferrnsol Form Release Agent is a water soluble lubricant made from a blend of biodegradable soaps designed to lubricate and reduce surface tension of form to protect against wear and tear. It can be used in both wet and dry applications and on multiple form surfaces such as metal, plastic, rubber, or wood.

USES

- Lubricates the surface of forms to extend the life of forms and reduce cleaning
- Excellent choice for use in automatic and hand pump spray equipment
- Ideal for when forms see daily use or need to be cleaned before each use

ADVANTAGES

- Low viscosity for high coverage rates
- Environmentally friendly
- Phosphate-free
- Biodegradable and non-toxic
- Water soluble for easy cleanup
- Excellent lubrication with extended performance
- Solvent-free and contains no petroleum products

DIRECTIONS

- Remove dirt or grease from surface to be lubricated.
- Apply Ferrnsol Form Release Agent onto form. Apply uniformly in a thin film to assure coverage.

CLEANUP

Clean tools and equipment with clean water.

STORAGE

Store in tightly sealed containers in a cool dry area away from direct sunlight and sources of heat. Shelf life of properly stored material is one year from date of manufacture.

PRECAUTIONS

In case of eye contact, flush immediately with water.
If swallowed rinse mouth with water and drink glass of water.

Product Data		
Form: Liquid	Odor: Mild	Color: Amber
Solubility in Water: Complete		
Specific Gravity / Density : 1.02 / 8.5		
Melting / Freezing Point: ~ 30°F		
Boiling Point: ~ 180°F		

Packaging and Part Number	
55 gal (207.9L) drums	F4.0103
275 gal (1040.9L) totes	F4.0104
