All Purpose Concentrated Leak Detector Soap

Product Data Sheet

Description:

ALL PURPOSE CONCENTRATED LEAK DETECTOR SOAP is a highly concentrated liquid soap made from a blend of renewable biodegradable ingredients. This product will resist freezing to below 20F.

Uses:

ALL PURPOSE CONCENTRATED LEAK DETECTOR SOAP is suitable for direct applications on pipes, valves, or any application where you need to detect an air or gas leak.

It may also be diluted for ease of application or for reduced cost. ALL PURPOSE CONCENTRATED Leak Test Soap will foam indicating where there are leaks in a pressurized system. It will wash off with water while cleaning the tested area.

Features:

- Liquid for easy application
- Biodegradable ingredients
- Cleans off with water
- Contains no petroleum
- Contains no phosphates
- Non-corrosive ingredients
