## **Sub Aqueous Pipe Joint Lubricant**

### **Product Data Sheet**

#### **Description:**

Phoenix 28-B Sub Aqueous Pipe Joint Lubricant that effectively lubricates pipe and pipe gaskets for safe and efficient assembly of all pipe. Phoenix 28-B is a soft non-water dispersible paste that is a stable blend of vegetable oil, soaps and surfactants.

Phoenix 28-B is excellent for non-potable wet or underground pipe assembly. The Phoenix 28-B water insoluble formula will not wash off pipe or gaskets under the harshest of weather or job site conditions. Phoenix 28-B Sub Aqueous Pipe Joint Lubricant will not swell gaskets.

#### **Features:**

- Will not support bacterial growth
- Consistency: Stable from 20 to 110°F
- No objectionable odor
- Slow rate of solubility
- Made from renewable resources
- Biodegradable
- Contains no phosphates
- Contains no petroleum
- Non-toxic

#### **Product Data:**

- Form: Soft paste
- Color: Tan
- Water Dispersibility: Trace
- Penetration: 300-350 @ 77°F  
(typical) 195-245 @ 20°F
- Total Base Number: 50-80 mg
- Flash Point: >220°F (contains water)
- Percent NVM: Approx. 85 by weight
- Bulk Density: Approximately 10.0 pounds per gallon
